The power of citizen science

Citizen science is the involvement of the public in scientific research – whether community-driven research or global investigations. The Citizen Science Association unites expertise from educators, scientists, data managers, and others to power citizen science. Join us, and help speed innovation by sharing insights across disciplines.

About this Journal

Citizen Science: Theory and Practice is an open-access, peer-reviewed journal published by Ubiquity Press on behalf of the Citizen Science Association. The journal focuses on advancing the global field of citizen science by providing a venue for citizen science researchers and practitioners to share best practices in conceiving, developing, implementing, evaluating, and sustaining projects that facilitate public participation in

A Framework for Articulating and Measuring Individual Learning Outcomes from Participation in Citizen Science

A person with blonde hair, wearing a white t-shirt with brown stains and blue nitrile gloves, is holding a dark, tangled net in a field of tall green grass. The background shows a line of trees under a clear sky. The image is overlaid with a semi-transparent green box containing text and a calendar icon.
